Short-Term Ministry Opportunities With Africa Inland Mission

2017

**Have you been wondering** how God can use you as a Medical Missionary in Africa? Mediquest may be just the opportunity for you!

**Key components of the MediQuest learning experience include:**

- Discipleship and spiritual growth
- Exposure to health care ministry and expatriate life in Africa
- Cross-cultural observation, learning and adaptation
- Holistic ministry service
- Team life and responsibility
- Language learning

## The Assignment...

### What is MediQuest?

MediQuest is a field orientation to a broad range of cross-cultural health ministries, reflecting the diversity of currently available options for medical service. It's led by an experienced missionary health care professional and is particularly designed to stimulate reflection on the interaction of health ministry and AIM's priority toward engaging Unreached People Groups or catalyzing national efforts to do the same.

**What MediQuest is not:** MediQuest is primarily about exploration and learning. There will be limited opportunities to shadow qualified medical personnel in their clinical practice, however, MediQuest is NOT designed as an opportunity for "hands on" involvement in curative care.

### Who can serve?

6 team members

- Current health care professionals
- Students enrolled in a health care professional program (nursing student, medical student, etc.)

### How much support will I raise?\*

to be determined

### Where will I serve? Kenya and Tanzania

**When will I serve?\*\*\*** June 4-July 15, 2017 (This includes pre-field orientation in Toronto and travel days). Applications due March 10, 2017

\* Actual cost varies based on airfare and other factors

\*\*Dates are subject to change slightly

## Interested?

complete our Ministry Interest Form online at [ca.aimint.org/contact/ministry-interest-form/](http://ca.aimint.org/contact/ministry-interest-form/)  
Specify MediQuest in the subject field of the form.
